25X1A

MEMORANDUM FOR: Director of Training

FROM :

25X1A9a

SUBJECT : Summer Area Program at

1. [REDACTED] Branch Chief, who is attending [REDACTED] lectures, has telephoned me his comments on the course as it has been given to date. He considers them well worth while for all who are attending, so much so indeed that he requires attendance of all of those taking the course. He points out that many are developing backgrounds of knowledge which hitherto they have lacked while others are obtaining valuable review and filling in information which is available to them. At the beginning he had been concerned about taking his people from their work for as much as two hours a day every day in the week but he now feels gratified with the results that are being achieved and is happy that the opportunity has been provided. He also speaks highly of [REDACTED] ability to adjust to the needs of the course and to alter his procedures to fit the student's desires.
